It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

The annual message of the Executive was received by the House, through the hands of Mr. Brodhead, the Governor's Private Secretary, and was read by the Clerk.

On motion of Mr. Pratt,

Resolved, That the Governor's message be laid on the table, and 2000 copies be printed in the English language, 500 in the German, and 500 in the French.

On motion of Mr. MacLeod,

The House adjourned till to-morrow at ten o'clock.

Tuesday, January 7, 1845.

The House met pursuant to adjournment—a quorum present.

The Hon. Wales Adams, member elect from the county of Branch, was announced to be present, and Mr. Adams thereupon appeared, was qualified, and took his seat.

Mr. MacLeod, from the select committee to investigate the claims of the gentlemen from Lenawee county, contesting a seat in this House, made the following report :

The select committee to whom was referred the contested election between Henry Wyman and Thomas Kealy, from the county of Lenawee, beg leave, under the rule, to report the following state of facts, and the opinion of the committee upon the same.

Thomas Kealy, in support of his claim, presented the published statement of votes given for representatives to the State Legislature in the several townships of Lenawee county ; by which statement it appears that in the whole county he had received 2211 votes, which gave him a majority of 206 votes over the other claimant, Henry Wyman. By the same published statement it further appears that 306 votes were cast for one Henry A. Wyman, of which 301 were given in the town of Tecumseh.

Mr. Kealy further, in support of his claim, presented the certificate of the county clerk, certifying to the election of Thomas Kealy, as patent in the certificate of the board of county canvassers, of record in the office of said clerk. Such was the entire evidence on the part of Mr. Kealy.

Mr. Wyman, on the other hand, alledged that through a clerical error of the township clerk of Tecumseh, 301 votes, which had actually been thrown for himself, were returned to the board of county canvassers as having been given to one Henry A. Wyman.

In support of his averment, Mr. Wyman presented an affidavit signed by the inspectors of elections for the township of Tecumseh, and setting forth unequivocally that 301 votes were cast in that township for Henry Wyman, and that no vote was given for Henry A. Wyman.

The committee further examined Messieurs Blair and Eastman, representatives of the county of Lenawee, in relation to the manner in which the error occurred.

Mr. Kealy did not attempt to controvert the facts in the case, but relied upon the following points. 1st. The legislature cannot go back of the certificate of the county canvassers in determining the election of its members: and, 2d. That the affidavit presented by Mr. Wyman was not sufficiently authenticated, being without seal.

From all the facts, the committee were *unanimously* of opinion that the 301 votes of the township of Tecumseh were actually cast for Henry Wyman, and should be added to the 2005 given to him in other townships, which would give the said Wyman a clear majority of ninety-five votes over Mr. Kealy.

The committee are further of opinion that no question can arise in relation to the right of a legislature to go back of any certificate. On this point the constitution of the State is express and unequivocal: "Each House shall judge of the qualifications, elections, and returns of its own members."—Art. iv, Sec. 11.

In relation to the want of a proper authentication of the affidavit of the inspectors of election, your committee were fully satisfied by the evidence of Messieurs Blair and Eastman.

They therefore respectfully and unanimously recommend to the House, that Henry Wyman shall be deemed duly elected, and be forthwith admitted to his seat in this House.

The Report was accepted, and Mr. Wyman thereupon appeared, was qualified, and took his seat.

NOTICES.

Mr. Pratt gave notice that he should at some future day ask for leave to introduce a bill to provide for the sale of the Southern and Central Rail Roads, and for liquidation of the state indebtedness.

On motion of Mr. Bancroft,

Resolved, That the Clerk be requested to furnish members with

such newspapers as they may direct, not exceeding the price of two daily papers.

On motion of Mr. McLeod, the House proceeded to the election of a Sergeant-at-Arms, with the following result :

The Speaker announced the following message from his Excellency, the Governor, covering the communication which follows, from the office of Indian Affairs.

EXECUTIVE OFFICE, }
Detroit, January 14, 1845. }

To the House of Representatives :

I herewith transmit a copy of a letter from T. H. Crawford, Esq. Commissioner of the Office of Indian Affairs, on the subject of selling intoxicating drinks to the Indians.

JNO. S. BARRY.

WAR DEPARTMENT, }
Office of Indian Affairs, December 12, 1845. }

SIR :—It has ever been the humane policy of the Government of the United States to prevent the introduction of ardent spirits among the Indian tribes, but it would appear, judging from the present state of the whiskey trade, that all the benevolent efforts exerted by this Department have failed. The Indian agents and sub-agents have done all in their power to put an end to this pernicious traffic, but as their jurisdiction is limited to the Indian country, the Indians are enabled nevertheless to go into the adjoining States and Territories and purchase as much whiskey as they can carry away. By these means the whole labor and care of the agents are thwarted.

From all sections of the Indian country, complaints are constantly

coming up to this Office, of the evils attendant on the whiskey trade, and the consequent increased degradation of these unfortunate people. It behooves us to do all that we possibly can to prevent its continuance and to put a stop to its present destructive course, and I have conceived it my duty to address to you a communication upon this subject, and to request you as the Executive, to lay it before the Legislature in order that they may take the proper action thereon.

I would therefore suggest for your consideration, the passage of an act declaring the introduction of ardent spirits beyond the precincts of the white settlements, (within the bounds of the land sold or advertised by government) to be *prima facie* evidence of intention to sell or give to the Indians and subjecting the same to confiscations. Also making the sale or introduction of liquor a misdemeanor, and punishable as such; giving all persons in the employ of the Government or of the State or territory full power to seize, confiscate or destroy the article. A heavy fine should likewise be imposed upon all persons whomsoever that sell ardent spirits to Indians, &c. (which in a few cases is now authorized.)

By the passage of such a law in the different States and Territories much good might be done as it would enable the military Indian agents and their subordinates to check if not entirely to put a stop to this nefarious traffic. And I would therefore respectfully urge upon you the reference of this matter to the Legislature.

Very Respectfully,

Your Obedient Servant,

T. HARTLEY CRAWFORD.

His Excellency, JOHN S. BARRY,

Governor of the State of Michigan, Detroit.

Mr. Hays offered the following preamble and joint resolution, which were twice read, and on motion of Mr. Cartter, were referred to the committee of the whole :

her ability to maintain her independence and standing among the nations of the earth.

Whereas, the Secretary of the Treasury has deemed it expedient to discontinue the temporary office of "General Superintendent of Lights" on the Northern Lakes ; thus throwing the duties of that office upon the Collectors of Customs, within their respective districts; And whereas the two offices have no natural connection, requiring qualifications wholly different, and involving employments between which no affinity can possibly exist; And whereas, it is of the utmost importance to the State of Michigan that every thing connected with the conservation of her commerce and the safety of her citizens, should be scrupulously cherished;

Therefore be it

Resolved, by the Senate and House of Representatives of the State of Michigan, That our Senators be instructed and our Representatives be requested to make use of their best efforts to secure the establishment of a permanent office of Superintendent of Lights on the Northern Lakes.

Resolved, That the Governor be requested to forward a copy of this preamble and resolutions to each of our Senators and Representatives in Congress.

Whereupon the said preamble and resolutions were read the first and second time, and referred to committee on federal relations.

Mr. Bancroft gave notice that he will, at some future day, ask leave to bring in a bill making an appropriation of land to aid in laying out and constructing a state road, commencing in the town of Lexington, in the county of St. Clair, to Point au Barques.

Mr. Wyman gave notice that he will, on some future day, ask leave to bring in a bill to provide for the printing the annual reports of certain State officers.

Mr. Roof offered the following resolution, which, on motion of the same gentleman, was laid upon the table.

Resolved, That the committee on internal improvements be, and they are hereby instructed, to bring in a bill making further appropriations of State land for grading the line of the Central Railroad, from Kalamazoo west ; and an appropriation of 40,000 acres of

land for constructing a canal around the Grand Rapids of Grand River, and for the improvement of said river, and such other appropriations as the means of the State will justify.

THIRD READING OF BILLS.

The "bill to amend the law in relation to crimes," the "joint resolution relative to the State library," and the joint resolution relative to accounts of the postmaster of the city of Detroit," were severally read a third time and passed.

On Motion of Mr. Schwarz,

The resolution offered by Mr. Wyman, on the 13th inst., providing for the reprint of sundry reports of State Officers, was taken from the table, and,

On motion of Mr. Wyman,

The same was indefinitely postponed.

GENERAL ORDER.

The House then resolved itself into committee of the whole on the general order, Mr. Stone in the chair; and after some time spent thereon, the committee rose, and the chairman reported that they had had under consideration the report of the joint committee on the joint rules of the two houses, which he was instructed to report back to the House without amendment.

The report being under consideration in the House, Mr. MacLeod moved that the House concur in that part of the report recommending the adoption of rule 5th as amended by the joint committee, and non-concur in so much thereof as recommends the abolishing of rule 9th, as amended, which motion prevailed.

On motion of Mr. MacLeod,

The following was adopted to stand as rule 10th :

Whenever there shall be an election of any officer in joint convention, or whenever said convention shall advise or consent to a nomination made to them by the Governor, the result shall be certified by the President of the Senate and Speaker of the House of Representatives, and shall be announced by the presiding officer of each house to their respective houses and be entered on the journal of each and shall be communicated to the Governor by the Secretary of the Senate and Clerk of the House of Representatives.

Mr. Thompson, in pursuance of previous notice, asked leave to in

introduce a bill for the improvement of the Northern Turnpike or Wagon Road, on or near the line of the Northern Railroad, leading from Port Huron, St. Clair county, to the waters of the Grand River.

Leave being granted, the Speaker appointed Messrs. Thompson, Hazelton, and Roof, a committee to bring in said bill.

On motion of Mr. Hazelton,

REPORTS.

Mr. Mac Leod made the following report:

The committee on the judiciary, to whom was referred the petition of Alexander Sloan, praying for the passage of an act to authorize the petitioner to drain a lake on certain school lands situated in Van Buren county, beg leave to report: That after a careful examination of the facts in the case, they find that the lake referred to was excluded in the location of school lands in the county aforesaid, and consequently is still a parcel of the public lands of the United States, over which the State of Michigan can in no wise exercise the jurisdiction asked for in the prayer of the petitioner. Your committee report adversely and ask to be discharged from a further consideration of this subject.

Report accepted and committee discharged.

Mr. Mac Leod, from the same committee, to whom was referred a joint resolution proposing an alteration of the constitution of this State, by which the permanent location of the seat of government should be postponed until A. D. 1857, report that no sufficient reasons were presented to your committee to warrant them in recommending the alteration proposed. They therefore report back the joint resolution without amendment and respectfully advise that the same do not pass.

The report of the committee was accepted and referred to a committee of the whole.

Mr. Mac Leod, from the same committee, to whom was referred a joint resolution praying an amendment to the constitution of the state relative to biennial sessions of the Legislature, reported, that the great expenses incurred by an annual session of the Legislature meet with no adequate return in the profits of legislation. They there-

fore report back the joint resolution and unhesitatingly recommend its passage.

Report accepted and referred to committee of the whole.

Mr. Mac Leod, from the same committee, to whom was referred a bill to amend an act entitled an "act for the destruction of wolves," also a preamble and resolution of the board of supervisors of the county of Eaton, on the same subject, reported back the bill with an amendment striking out the words "the peninsula of," so that the amended clause shall read, "in any organized township within this state," with which amendment the committee recommend the passage of the bill and ask to be discharged from the further consideration of the subject.

The report was accepted, committee discharged and the bill referred to a committee of the whole.

Mr. Mac Leod from the select joint committee on joint resolutions made the following report:

The select joint committee, appointed by the senate and house of representatives, to consult and advise on the practice of both houses in relation to joint resolutions, have instructed me to report as follows :

That, in the opinion of your committee, the 17th section of the 4th article of the state constitution that every resolution which requires the concurrence of both branches of the legislature, to render it complete must be subject to the same action as the constitution and the rules of both houses prescribe in reference to bills.

The effect of this constitutional provision upon the practice of the houses, must necessarily be to impede legislation and protract our sessions to an unwarrantable degree, unless some mode be devised other than what now obtains in relation to joint resolutions. Notice of intention as now prescribed by rule, in cases of bills, the delay of at least one day, the appointment of a committee to bring in the resolution, the report of that committee on a subsequent day, the reference of the resolution when introduced to a standing committee, or to the committee of the whole house, the three several readings, and the engrossment, and presentation to the executive, must all follow in the train of such a practice, as the constitution requires in regard to joint resolutions, as such forms of legislation are usually submitted to the Houses.

On the other hand, if there were no restrictions on joint resolutions

individuals would undoubtedly resort to this mode of legislating, to avoid the delay and formality which attends the passage of a bill.— And thus, legislation by bill, the safest and undoubtedly the most legitimate vehicle of legislative action, would in a short time give place to the more expeditious, but vaguer and insidious mode of legislation by joint resolution.

To avoid as far as practicable the difficulties of either mode and at the same time to adhere scrupulously to the requirements of the constitution, the committee would seriously urge that the practice of legislating by joint resolution should be confined to as narrow limits as are at all practicable; and that on all matters affecting the domestic economy of either branch of the legislature, and not necessarily of a general character, the action of both houses should be independent and complete in themselves without the concurrence of each other.

If the form of resolution be “resolved by the Senate and House of Representatives,” or resolved, (the Senate concurring) or (the House concurring) as the case may be, it is evident that in either case the resolution is incoate without the concurrence of both branches of the legislature, for the branch originating the resolution by its own determination, which determination is expressed in the form which they give to the resolution, render the action of the other branch necessary in order to complete the resolution. If then by adherence to this form, we render the concurrence of the Senate and House of Representatives necessary to complete the resolution, we inevitably fall under the provisions of the constitution, and however strictly domestic be the subject of the resolution, we must submit to the executive for his approval after carrying it through the formalities of a bill.

If however, in matters affecting only the economical arrangements of the legislative departments of government, we adopt a form of expression which will render the action of either branch complete in itself, we avoid the difficulty which in most instances, is of our own creation, and at the same time yield a rigid compliance with the pre-script of the constitution.

To illustrate by instances, if either branch of the legislature desires to confer with the other in relation to any matter of economical policy, the originating branch may, on its own motion, and by request, make such arrangements with the other branch, as may be deemed necessary; and although, if the request be not complied

with, the arrangement must necessarily be inoperative, yet the resolution being one of mere request, is perfected by the action of either House, and does not render the concurrence of the other House necessary to its completion.

Your committee would therefore respectfully recommend that this report be adopted as the sentiment of the House, and that it be transmitted to the other House for their deliberation and action.

All which is respectfully submitted in behalf of the joint committee.

Mr. Thompson, from the select committee appointed for that purpose, brought in a "bill for the improvement of the northern turnpike or wagon road, on or near the line of the northern Railroad, leading from Port Huron, St. Clair county, to the waters of the Grand River," which was referred to the committee on roads and bridges.

Mr. Taylor, from the select committee appointed for that purpose, brought in a "bill to attach certain townships to the county of Lapeer, as a part of the territory and jurisdiction thereof," which,

On motion of Mr. Hazleton.

Was referred to a select committee, consisting of Messrs. Hazleton, Stone, Taylor, Vickery and Pitcher.

MOTIONS, RESOLUTIONS AND NOTICES.

Mr. MacLeod gave notice that, at an early day, he will ask leave to introduce a bill to provide for the judicial governance of the counties of Michilimackinac and Chippewa, and the several unorganized quantities attached to the same, for judicial purposes.

Mr. Pitcher gave notice, that he will, at some future day, introduce a bill to amend an act, approved, March 11th, 1844, amendatory of an act, approved March 8, 1843, to provide for the assessment and collection of taxes.

Mr. Hill gave notice that he would on some future day ask leave to bring in a bill to incorporate seminaries of learning.

Mr. Harvie gave notice that on some future day he will ask leave to introduce a bill to incorporate the Odd Fellows Hall Association of the city of Detroit.

On motion of Mr. Bancroft,

Resolved, That the inspectors or agent of the State prison be requested to report,

1st. The length of time which the labor of the convicts are contracted for in the following branches of mechanical labor, viz: shoe making, coopering, manufacture of iron machinery, stores and castings, wagon making, connected with blacksmithing, and at what time the said contracts will expire.

2d. If the contracts by which the labor of the convicts engaged in mechanical labor are made so that they cannot be annulled at the pleasure of the State.

3d. If the convicts in the prison cannot be employed in some branch of business other than that of the mechanical trades.

MESSAGE FROM THE SENATE:

The chair announced the following communication :

SENATE CHAMBER,

To the Speaker of the House of Representatives :

SIR :—I am instructed by the Senate to transmit to the House of Representatives a "bill to provide for repairing the jail in the county of Wayne," which the Senate have passed, and in which they respectfully ask the concurrence of the House.

Very respectfully,

Your obedient servant,

T. F. BRODHEAD,

Sec. of Sen.

The bill from the Senate "to provide for repairing the jail of the county of Wayne," was read the first and second time and referred to the committee on the judiciary.

Mr. Thompson, in pursuance of previous notice, asked leave to bring in a "bill for the improvement of Shiawassee river." Leave being granted, the chair announced Messrs. Thompson, Hazelton and Roof, as a committee to bring in said bill.

GENERAL ORDER.

The House then resolved itself in committee of the whole on the general order, Mr. Thompson in the chair, and after some time spent thereon, the committee rose, and the chairman reported that the committee had had under consideration,

A joint resolution authorizing the commissioner of the State land office to release to D. C. Van Tine and others, the right to construct

a mill race or canal across certain University lands, which the committee had directed him to report without amendment.

Also a bill to amend an "act to establish a land office, to provide and regulate the disposition of the public lands, and for other purposes," approved March 11, 1844, which he also reported without amendment.

Also,

"Joint resolution, proposing an amendment to the constitution, postponing the permanent location of the seat of government until the year 1857," which he was directed to report with an amendment, and ask the concurrence of the House therein.

The joint resolution was ordered to be engrossed for a third reading.

The "bill to amend an act to establish a land office, &c.," being under consideration,

On motion of Mr. MacLeod,

The same was referred to a select committee, consisting of Messrs. MacLeod, Groves, D. Johnson, Pratt and Bancroft.

The joint resolution proposing an amendment to the constitution, together with the amendment made in committee of the whole, being under consideration,

Mr. Bancroft moved that the House do now adjourn, which motion did not prevail.

On motion of Mr. Wyman,

The joint resolution and amendment were laid upon the table.

The Speaker announced the following communication from the President of the board of internal improvement, which,

On motion of Mr. Bancroft,

Was laid on the table.

INTERNAL IMPROVEMENT OFFICE, }
January 20th, 1845. }

To the Speaker of the House of Representatives :

Sir—The undersigned has the honor to acknowledge the receipt of the following resolution :

"Resolved, That the Board of Internal Improvement be, and they are hereby instructed to inform the House, as early as it may suit their convenience, whether the iron for the Central Railroad between the villages of Marshall and Kalamazoo has been contracted

for, or any opportunity been presented for purchasing the same, and if not, whether any, and if any, what further legislation is necessary to accomplish that object."

I beg, in reply, to state : 1st. No iron for the Central railroad between the villages of Marshall and Kalamazoo has been purchased.

2d. That but one opportunity for procuring iron has presented itself, and that declined for the following reasons: The iron was of an inferior quality, had been used, was 5-8ths by 2 1-4 inches, and for which sixty-two dollars, as cash, was asked. The quantity offered was 500 tons, and would have laid about 22 miles of road. The size of the iron was deemed quite insufficient for the already large and still increasing business of the road, and the price exorbitantly high for iron of that quality. The Board have also continued to hope that the oppressive tariff upon that article would either be entirely remitted, or so much reduced as to make importation practicable, if the quality and price in this country was not satisfactory.

3d. No farther legislation is considered absolutely necessary, by the Board, to enable them to purchase. The acts of March 9th, 1844, Nos. 50 and 51, seemed to put at the disposal of the Board, all the nett proceeds of the public works which could be used for the purchase of iron, without a violation of the pledges given to our domestic and foreign creditors, under the acts of Feb. 21, and March 8th, 1843. But if the legislature know of any other means possessed by the state, which could be appropriated for the purchase of iron, it would doubtless enable the Board to contract on more advantageous terms, and greatly facilitate the negotiations for that purpose.

Very respectfully,

O. C. COMSTOCK, Jr.

Pres't. of the Board Int. Imp.

On motion of Mr. Wyman,

Resolved, That the committee of Ways and Means be requested to inquire whether any provision has been made to pay the usual salary to the librarian, and if not to report a bill for that purpose.

On motion of Mr. Eastman,

The House adjourned to 10 o'clock to-morrow morning.

Tuesday, January 21, 1845.

The House met pursuant to adjournment, and was called to order by the Speaker.

Prayer by the Rev. Mr. Inglis, Chaplain.

Sawyer and others, authority to raise Portage lake, in the township of Charleston, in said county, from three to six feet, for the purpose of creating a water power. Referred to committee on the judiciary.

REPORTS.

Mr. Eastman, from the committee on engrossment and enrollment reported as correctly engrossed, the "joint resolution authorizing the commissioner of the State land office to re-lease to D. C. Vantine and others, the right to construct a mill race or canal across certain University lands."

Mr. Hays, from the committee on internal improvement, made the following report :

The committee of internal improvement to whom was referred the report of the board of internal improvement, have had under consideration that portion of it relating to the completion of the Central Rail Road, from Marshall to Kalamazoo,

Report that a majority of your committee believe that the interests of the State require the immediate completion of the Central Railroad from Marshall to Kalamazoo: That the road is now nearly ready for the iron. Therefore, that it would be unwise for the State not to render every assistance possible for its speedy completion. A majority of your committee believe it would add to the receipts of the road over twenty-five per cent to the already flourishing condition of the road.

The committee, from information obtained from the report of the board of internal improvement, have come to the conclusion (as that report says,) that it will require twenty thousand acres of land to completely finish the road from Marshall to Kalamazoo. More directly for the purposes of building a car house at Kalamazoo, the station building at Battle Creek, Augusta and Galesburgh, the necessary side tracks, turn-rounds, and wells, the settlement of damages for right of way and payment retained per centages, at the time of reletting the work. That, as a considerable portion of the expense will be for timber, it is deemed important by a majority of your committee, that the job for said work should be let as soon as possible, as the materials for said work can be obtained at a much lower rate in the winter, than they can in the spring or summer.

The committee have instructed their chairman to report a bill to provide for the completion of the Central railroad from Marshall to Kalamazoo, which is respectfully submitted.

Whereupon the said bill was read a first and second time, and referred to a committee of the whole.

Mr. Hays, from the same committee to whom had been referred the petition of E. Corning & Co., for relief, touching a warrant issued for spikes for the Central Railroad, reported that the committee had had the said petition under consideration, and instructed their chairman to report the same back to the House, and recommend that it be referred to the committee on claims, and to ask that the committee be discharged from the further consideration thereof.

Report accepted, the committee discharged and the petition was thereupon referred to the committee on claims.

Mr. Pratt, from the committee on claims, to whom was referred sundry claims of G. F. Rood & Co., for stationery furnished the state for the year 1844, reported that the committee had had the same un-

der consideration, and had instructed their chairman to report the same back to the House, recommending that the same be allowed and paid, and that they be referred to the committee on ways and means with instructions to incorporate the same in a bill, making appropriations for the year 1845, and ask to be discharged from the further consideration of the subject.

The report was accepted, the committee discharged and the said claim referred to the committee of ways and means.

Mr. Hazleton from the select committee to whom was referred a bill to attach certain townships to the county of Lapeer as a part of the territory and jurisdiction thereof, reported that the committee had had the same under consideration, and had instructed their chairman to report the same back to the House and advise its reference to the committee on towns and counties, and ask to be discharged from the further consideration thereof.

The committee were accordingly discharged, and the said bill referred to the committee on towns and counties.

Mr. Thorpson, from the select committee appointed for that purpose, brought in "a bill making appropriation of land to improve the navigation of the Shiawassee river," which was read a first and second time and referred to a committee of the whole.

Mr. Mac Leod, from the select committee to whom was referred the bill to amend "an act to establish a land office, to prescribe and regulate the disposition of the public lands, and for other purposes," approved March 11, 1844, reported the same back to the House with the following amendments, in which they advise the concurrence of the House, and ask to be discharged from the further consideration thereof.

1st. Amend by striking out sections three and four in said bill.

2d. Amend by adding two new sections, as follows:

SEC. 8. The minimum price of the unsold, unimproved university and state building lands shall be eight dollars per acre, and the minimum price of the unsold, unimproved school lands shall be four dollars per acre; and the commissioner may sell and dispose of such lands at the said prices respectively.

SEC. 9. That section 10 of the act to which this act is amendatory be, and the same is hereby repealed so far as precedes the proviso in said section.

Whereupon the committee were discharged from the consideration of the subject.

Mr. Hazelton moved the following proviso:

"Provided, however, that no southern State, Province, or Territory with southern interests and institutions, be annexed to these United States, until a like extent of northern territory with northern interests and institutions be added thereto." in order that an equilibrium of power be maintained. Which motion was lost.

Mr. Hill offered the following:

Resolved, That in the opinion of the Senate and House of Representatives of the state of Michigan, a great majority of the people of this state prefer the re-annexation of Texas by having her territory divided into non-slaveholding states, but with Mr. Clay we consider the acquisition of such vast importance to the United States that no temporary institution ought to stand in the way, therefore we leave that question to be settled by the people who now or may hereafter occupy said territory.

Which resolution did not prevail.

Mr. Ransom offered the following proviso:

Provided, That as often as one of the present slave states shall become a free state, by the draining of its slaves into Texas, so often a slave state to be formed out of the Territory of Texas, so annexed, may be admitted into the Union, and not oftener.

Which was lost.

Mr. Roof offered the following amendment:

Add after the word "United States" in the resolution, the words "as a territory," which was lost.

Mr. Williams offered the following proviso:

"*Provided*, It can be done on what they should conceive to be fair and honorable terms." Lost.

Mr. Thompson moved to strike out the word "immediate," and the prefix "re," before "annexation;" which motion did not prevail.

Mr. Galloway moved a reconsideration of the vote by which the amendment offered by Mr. Hill, relative to the boundaries of Texas, was adopted ; which motion prevailed.

And the question recurring on the amendment, it was lost.

Mr. Pratt offered the following preamble and joint resolutions as a substitute for those under consideration.

Whereas, The recent demonstration of public opinion, as evinced in the late presidential election, furnishes undoubted evidence that a large majority of the electors of this State and of the Union are in favor of the re-annexation of the territory of Texas to these United States, and that the expressed will of the people and Government of Texas favors such re-annexation ; and

Whereas, The re-annexation of Texas to the United States would restore the integrity of the National Territory, and by advancing the commercial, manufacturing and agricultural interests, and by extending the benefit of free trade over a large and productive region of this continent, would promote the common welfare of the whole American people ; therefore

Resolved, by the Senate and House of Representatives of the state of Michigan, That our Senators in Congress be instructed, and our Representatives be requested, to use their exertions to procure the adoption of such measures by the general government, as in their opinion shall be best calculated to effect the re-annexation of Texas to the United States.

Resolved, That the Secretary of State be directed to furnish a copy of the foregoing resolutions to each of our Senators and Representatives in Congress.

The substitute was negatived.

The question was then put upon ordering the original resolution as amended, to be engrossed for a third reading, and the yeas and nays having been demanded, it passed by the following vote :

YEAS.

Mr. Andrews,

The committee on the judiciary to whom was referred a petition of sundry citizens of Lenawee county, praying that the law for draining swamps, marshes, &c., may be amended, have had the same under consideration, and have directed me to report adverse to the prayer of said petition.

First, because they deem the act asked to be amended unconstitutional, inasmuch as it compels one individual to dispossess himself of his real estates for the benefit of another individual, without his consent or being himself a willing party to the transfer.

Second, because the amendment proposed by said petition would render the act referred to still more objectionable than it now is.

They have also instructed me to report a bill to repeal said act.

On motion of Mac Leod,

Five hundred extra copies of the said report were ordered to be printed for the use of this House.

Mr. Cartter, from the committee on banks and incorporations, to whom was referred the petition of sundry persons, praying an amendment to the charter of the Detroit and Grand River Plank Road Co., reported a "bill to amend an act entitled an act to incorporate the Detroit and Grand River Plank Road Company," which was read the first and second time and referred to a committee of the whole.

Mr. MacLeod, from the same committee, to whom was referred a resolution of the House on the subject of an amendment to the Justices' Act, abolishing appeals, made the following report :

The Committee on the judiciary have had under consideration the petitions of Philurea Leonard, James L. Fletcher and Edward Martin, all praying the passage of a law to authorize them respectively to sell and convey the real estate, or interest of minors.

On an examination of the session laws of 1840, page 25, sec. 2, your committee find an act entitled "an act to authorize the conveyance of real estate of minors in certain cases," which confers upon the court of chancery ample power to order the letting for a term of years, or decree the sale, conveyance, or other disposition of the real estate or interest of minors, in such manner and with such restrictions as shall be deemed expedient.

As the chancery courts have, therefore, full discretionary powers to award relief, and from their ampler means of information, can better adjudicate upon the equities of the respective cases, your committee would report adversely to the prayers of the several petitions, and respectfully ask to be discharged from the further consideration of this subject.

Report accepted, and the committee discharged accordingly.

AUDITOR GENERAL'S OFFICE, }
Detroit, February 28, 1845. }

To the Speaker of the House of Representatives :

SIR :—I have this morning, received a copy of a resolution which appears to have passed your body on the 25th inst., to wit :

"*Resolved*, That the Auditor General be requested to inform this House, at an early day, whether, under the act (No. 96,) approved March 11, 1844, he has received any notices of the designation by county treasurers, of newspapers for the publication of delinquent tax lists ; and furnish such other information as he may possess on the subject of such publications."

I have received notices of designations of papers from Branch, Ingham, St. Joseph, Genessee, and Kent counties ; and also, notices of double selections from Hillsdale and Kalamazoo counties.

In the two latter counties the outgoing treasurers designated papers before they left office, and the same duty has also been discharged by their successors. I am also indirectly informed that a similar zeal has been manifested in one or two other counties.

It may be proper to say, that a zeal so ardent, as to discharge any other duty enjoined by the tax law, twice, has not before been discovered.

All which is respectfully submitted.

The undersigned, a minority of said committee, dissent from the recommendation in the above report.

1st. Because associations of the character asking to be chartered, by this bill, in the opinion of the undersigned, tend to sap the foundation of good society.

2d. Because if said association should be successful in its operations, (with the capital asked) it would in a great measure control the agricultural, manufacturing, and commercial interests of the state and with a powerful influence in its politics, which could hardly be controlled by the people.

3d. Because there is in this state sufficient individual enterprise to carry on every branch of home industry and commerce that is need-

ed by the people of this state, and such enterprise should never be brought in competition with wealthy chartered associations.

H. CARTTER,

ing informed the committee that he made an arrangement with the printer, Dr. Kaminskry, to correct the proof, as will appear by the accompanying letter, from the translator.

The report of the committee was accepted, the committee discharged and the same was referred to the committee of ways and means, with instructions to incorporate the said claim in the general appropriation bill for the current year.

Mr. MacLeod, from the committee on the judiciary, with the unanimous consent of the House, made the following reports :

Upon the petition of Wm. Laid and others of the county of St. Joseph for the passage of a law regulating fences, the committee report that so much diversity of opinion exists on this subject that the committee feel both unable and unwilling to decide authoritatively on the matter ; and for the purpose of eliciting information, and testing the sense of the House, they introduce the accompanying bill and ask to be discharged from the further consideration of said petition.

Report accepted, the committee discharged, and the bill relative to highway and outside fences, was read the first and second time and referred to the committee of the whole.

Upon the petition of Oshen Wilder and Cornelia Wilder, the committee report that from reasons repeatedly stated by the committee in several reports upon the same subject, based on the session laws of 1840, sec. 2, page 26, they feel constrained to report adversely to the prayer of the petition and ask to be discharged from the further consideration of the subject.

Upon the petition of Joseph Wakazoo and others, the committee report that by section 1, article II of the constitution of this state, they are prevented from granting the prayer of the petition. They therefore report adversely and ask to be discharged from the further consideration of the subject.

Upon several petitions praying for a law providing that all monies raised for township purposes other than ordinary expenses shall be voted for by ballot at township meeting

The committee report that as no reasons are presented to the committee in said applications, and as the committee know of none that would warrant them in recommending a departure from the present system, they report adversely to the prayer of the petition, and ask to be discharged from the further consideration of the subject.

Upon the petition of 93 citizens of Kalamazoo, for a grant of authority to William E. Sawyer and others, to raise Portage Lake, the committee report that the petitioners do not set forth the geography of the region in which said lake is situated ; they furnish no informa-

tion as to private rights that may be effected by the change proposed ; they offer no evidence on the occupants of the shores of said lake (if such there be) and they impose a task upon the committee of hunting up evidence for which they have neither time nor inclination. They therefore report adversely to the prayer of the petition and ask to be discharged from the further consideration of the subject.

Mr. MacLeod, from the same committee further reported as follows :

The committee on the judiciary have had under consideration the petition of Cyrus Dana and others, praying that Alvin J. Dunbar may be authorized to convey certain real estate.

As the petitioners have their remedy in chancery, and as no sufficient evidence has been presented to your committee, (after long delay and notice to the petitioners) to warrant any legislative interference, they report adversely to the prayer of the petition, and ask to be discharged from the further consideration of the subject.

The committee further reported as follows :

The committee on the judiciary have had under consideration the memorial of Christian Beidleman and Nancy Beidleman, his wife, praying authority to enable their son William, (being a minor) to convey certain real estate.

The circumstances of the petitioners are not set forth in their application, nor are there such facts, statements or evidences afforded, as, in the opinion of the committee, would warrant a departure from the course prescribed by law. They therefore beg to call the attention of the memorialists to section 2, page 26, session laws of 1840, by the provisions of which act they can obtain their wishes at a moderate expense, for good cause shown. The committee therefore report adversely to the prayer of the petition, and ask to be discharged from a further consideration of the subject.

The committee further report as follows :

The committee on the judiciary have had under consideration, two petitions from the county of Washtenaw, praying the re-enactment of sections 5 and seven, part 1st, title 7, chapter 6, page 161, Revised Statutes, relative to interest of money.

The petitioners set forth—

1st. That "*it cannot be denied,*" that the Legislature of 1843,

which repealed the sections referred to, acted, in said repeal, "for individual cases then pending before our courts, instead of the public good."

2nd. That in the years 1838, '39 and '40, the inhabitants of the State were in great distress, and compelled to borrow money on usury.

3rd. That in nearly all of the States in the Union, "and in most of the civilized nations of the world," penal laws against usurious interest have been and still are in force ; and

4th. That, such a law "is absolutely necessary to protect the industrious portions of the community from the miserly grasps of more fortunate individuals who have money, and only use it to accomplish the sure destruction of their neighbors."

To which your committee reply—

1st. That, in their opinion, it is highly indecorous to charge upon a legislative body, acting under the solemnity of sacred oaths, the crimes of perjury, injustice and venality ; and if possible, still more indecorous to urge such a reason upon another legislature as the grounds of a contrary action.

2nd. That, as to the distress which prevailed in 1838, '39 and '40, your committee, in the language of Carlisle, believe it to be "an earnest fact, and in no wise a matter of dubiety or dillitantiam."

3rd. That, as to the allegation that statutes of usury exist in nearly all of the States, and in most of the civilized nations of the globe, your committee would add that a like statute prevailed amongst the uncivilized Hebrews, as early as B. C. 1490. Also a statute that he who should pick up sticks on the Sabbath should be stoned to death. *Vide Leviticus, passim.*

4th. That as to the "*absolute necessity*" of such a law, your committee cannot see why money should be placed on any other footing than other marketable commodities ; or why an individual should be compelled to take seven per centum for his money when its marketable value was ten per centum, any more than a farmer should take fifty cents for a bushel of corn when its marketable value was one dollar. And, finally, as to the flourish that he who has money only uses it to accomplish the sure destruction of his neighbor, your committee would respectfully advise that neighbor not to court his own

destruction by indulging in a luxury beyond his means. They would only further add, that their views are those entertained, if not "by most of the civilized nations of the world," at least by all the political economists whose volumes they have had leisure to consult.

They therefore report adversely to the prayer of the petition and ask to be discharged from any further consideration of this subject.

The several reports of the committee were accepted and the committee discharged from the further consideration of the subjects therein referred to respectively.

The committee also report back to the House a bill to authorize sheriffs to do business in justices courts, and for other purposes, recommend the passage of the bill with sundry amendments, and ask to be discharged from its further consideration.

The committee were discharged and the said bill was read the first and second time and referred to the committee of the whole.

The committee also reported as follows :

The committee on the judiciary have had under consideration the following papers, viz :

I A communication of General John E. Schwarz to E. Farnsworth Esq., Attorney General, relative to the ownership of certain bridges on the rivers Rouge and Ecorse, and a reply to the same.

II The petition of Edward Williams and fifty-five inhabitants of Wayne county, praying an appropriation to repair said bridges.

3rd The petition of John Biddle and twenty-nine others on the same subject.

In reference to these several papers, your committee find,

1st That by virtue of an act passed December 16, 1816, certain persons were authorized to erect toll bridges over the rivers Rouge and Ecorse ;

2nd That by virtue of another act to be found on page 549, laws of 1827, said bridges were to revert to the Territory of Michigan after the expiration of twenty-five years ;

3rd That 1816 and 25 make 1841, and consequently, by the terms of the act, that the bridges are now *bona fide* the property of the state.

Having thus disposed of the grave questions of law and arithmetic, which were suggested by the papers respectively, your committee beg to add that the matter of repairing bridges does not, in their hum-

ble opinion, come within the scope of the legitimate business of the committee on the judiciary. They therefore ask to be discharged from a further consideration of this subject, and advise that the several papers be submitted to the committee on roads and bridges.

On motion of Mr. Harvie,

Mr. Mac Leod from the same committee, to whom was referred the petition of sundry tax payers of the township of Bristol, Lapeer county praying for an alteration of the tax law, reported that no legal difficulty is presented which requires the adjudication of the committee on the judiciary. The only question relates to the expediency of making certain alterations in the present system of taxation and consequently falls within the province of the committee on ways and means.

The Judiciary committee therefore respectfully ask to be discharged from the further consideration of said petition and advise the reference of the petition respectfully to their appropriate committee of ways and means, and the petitions were referred accordingly.

Mr. Mac Leod, from the same committee reported as follows :

The committee on the judiciary, to whom was referred two petitions from the counties of Oakland and Kalamazoo, praying the abolition of capital punishment, beg leave to report : That the subject in all its bearings has been so often canvassed, and its merits are doubtless so well understood, that the committee feel absolved from the obligation of recommending any action in the premises. The question being upon concurring with the committee of the whole House in their amendment to the joint resolution relative to the imprisonment of Thomas W. Dorr.

Mr. Cook, moved that the House adjourn, which was lost.

The House non-concurred in said amendment and thereupon

Mr. Speaker (Mr. Wyman having been called to the chair,) offered the following amendment:

Strike out all after the word resolved, and insert the following:

That in view of the existing imprisonment of Thomas W. Dorr,

for life, by the authorities of the State of Rhode Island, and the causes that led to that imprisonment, we deem it proper for the various states of the union through their Legislatures to express their opinions of assent or dissent to the action of the authorities of that State, in relation to said imprisonment and that in the opinion of the Legislature of this state, the said imprisonment and the conviction that led to it was a violation of the genius and spirit of our institutions, at war with republican government, and a high infraction of the very principles upon which the government of the United States and the various States of the union are based.

Pending the question on the amendment,

Mr. Pratt moved to adjourn to 7 o'clock this evening.

Mr. Mac Leod moved that the House do now adjourn, and the House was declared to be adjourned to half past nine o'clock to-morrow morning.

Thursday, March 6, 1845.

A quorum of members appeared.

Prayer by the Rev Mr. Watson.

The journal of yesterday was read and corrected.

PETITIONS.

By Mr. Hays—Of E. Seymour Newton to change his name to Edward Seymour. Laid on the table.

By Mr. Taylor—Of citizens of Lapeer county for an alteration of the tax law. Laid on the table. Also of 13 inhabitants of Lapeer county, that certain townships be re-attached to Lapeer county. Laid on the table.

REPORTS.

Mr. Eastman, from the committee on engrossment and enrollment reported as correctly engrossed, a bill to provide for the sale of land bid in by the state for delinquent taxes and other purposes.

Mr. Eastman, from the same committee, reported as correctly enrolled, an act to provide for the extension of the Central Railroad from the village of Kalamazoo to the village of St. Joseph ;

An act to provide for the extension of the Southern Railroad from the village of Hillsdale to the village of Coldwater or Branch ;

An act making an appropriation in aid of the construction of a wagon road on the line of the Northern Railroad;

An act making appropriations for the improvement of the Detroit and Grand River turnpike;

An act to provide for locking the Clinton and Kalamazoo canal into the Clinton river at the village of Frederiek, and for other purposes;

An act to provide for the construction of a canal around Grand Rapids on Grand River in Kent county; and the said bills had severally been presented to the Governor for his approval and signature.

Mr. Stone from the committee of ways and means made the following report:

The committee of ways and means, to whom was referred a memorial of the Albany Exchange Bank, relative to certain bonds against the state, heretofore issued to the Palmyra and Jacksonburgh Railroad company, praying that provisions be made for paying them, have directed me to report thereon:

That from a full investigation of the financial affairs of the state, your committee know of no resource not already anticipated or appropriated other than an increase of direct taxation, that could be relied upon for the payment of the annual interest on, and ultimate principal of said bonds, except the future proceeds of the Palmyra and Jacksonburgh Railroad, which with the expenditure hereinafter recommended will, in our opinion, be adequate to that purpose. The road in allusion was formerly completed ready for the iron, from the village of Palmyra to the village of Clinton, a distance of about fifteen miles, and used by said company before purchased by the state to some extent by horse power, but from lapse of time and neglect, the superstructure has now become partially decayed. Provision has already been made for completing the road as far as Tecumseh, and connecting it with the Southern Railroad. The distance from Tecumseh to Clinton is about five miles, and the estimated expense of repairing the superstructure is one thousand acres of land per mile. Indeed responsible individuals interested in the work are willing to obligate themselves to the state, to complete the work, after the above mentioned expenditure, should there be any deficiency. Clinton is in the heart of one of the most productive regions in the peninsula. The

work referred to, would, in our opinion, be highly productive, besides affording an important tributary to the Southern Railroad. In conformity with the foregoing views, your committee herewith report a bill.

The bill making provision for the payment of certain bonds against the State, and other purposes, was thereupon read the first and second time and referred to the committee of the whole.

Mr. Stone from the same committee to whom was referred a joint resolution to encourage emigration into this state, reported the same back to the House without amendment, and recommended its adoption and the said joint resolution was referred to the committee of the whole.

Mr. Cartter from the committee on banks and incorporations to whom was referred the Senate bill to incorporate the Ann Arbor Female Seminary, reported that the committee had had the same under consideration and that the majority of said committee had instructed their chairman to report the same back to the House and recommend its passage and ask to be discharged from the further consideration thereof.

The report of the committee was accepted, the committee discharged from the consideration of the bill, and the same was thereupon referred to the committee of the whole.

Mr. Andrews, from the committee on Indian affairs to whom was referred a joint resolution of instruction relative to an Indian treaty, reported that the committee had had the same under consideration, and directed their chairman to report the same back to the House without amendment, respectfully advise its passage, and ask to be discharged from the further consideration of the subject.

The report was accepted, the committee discharged accordingly, and the joint resolution was referred to the committee of the whole.

Mr. Pratt, from the committee on claims, reported favorably to the following claims, to wit:

Claim of A. S. Williams for advertising proposals for printing in conformity with the act in relation to the state printing, '44,	\$1 00
Claim of Edward D. Ellis, for printing as above, 1844,	\$1 00
Claim of A. S. Williams, for adv. division orders, 1844,	\$13 00
Claim of Edward D. Ellis, for Constitutional Democrat, furnished Adjutant General's office for 1843-4,	\$4 32

And recommended that said claims be referred to the committee on ways and means, with instructions to incorporate the same in the general appropriation bill; and the said claims were referred accordingly.

The Speaker announced the following messages from the Senate :

SENATE CHAMBER, }
March 6, 1845. }

SIR—I am instructed by the Senate to return to the House of Representatives a bill to amend chapter 3, title 3, part first of the revised statutes, relative to the duty of county surveyors, and a bill to modify the license law, and inform the House that the Senate have passed the same without amendment.

Your obedient servant,

T. F. BRODHEAD,
Sec. of Senate.

MESSAGE.

The Speaker announced the following message from the Senate:

SENATE CHAMBER, }
March 6, 1845. }

To the Speaker of the House of Representatives :

SIR :—I am instructed by the Senate to return to the House of Representatives a bill to amend an act in relation to certain actions in ejectment ;

Which the Senate have passed with an amendment, in which the concurrence of the House is respectfully asked.

Your obedient servant,

T. F. BRODHEAD,

Sec. of Senate.

On motion of Mr. Mac Leod,

The question upon concurrence with the Senate in its amendment to the bill to amend an act in relation to certain actions in ejectment, was laid upon the table.

MOTIONS, RESOLUTIONS AND NOTICES.

On motion of Mr. Mac Leod,

The bill ceding jurisdiction to the United States over a tract of land situate in Wayne county reserved by said United States out of the public lands for the site of an arsenal, was taken from the table, and with a similar bill from the Senate placed on the order of business before the House.

Mr. Pratt offered the following resolution, which was adopted :

Resolved, That all bills and resolutions laid on the table by the order of this House be hereafter taken from the table and placed on the order of business without the formality of a special motion.

Mr. Hazelton asked for and obtained leave to introduce a bill to provide for the construction of a bridge across the Thread River at or near the abutments on the line of the Northern railroad in the county of Genesee, and, the rule having been suspended, the bill was read the first and second time and referred to the committee of the whole.

On motion of Mr. Pullen,

The House reconsidered the vote refusing to order to a third reading the bill making an appropriation for the construction of the Pontiac and Grand River road, and the bill was thereupon ordered to be engrossed for a third reading.

On motion of Mr. Eastman,

Russell Lyman and eleven other petitioners had leave granted to withdraw their petition in relation to damages sustained by said Lyman by the construction of the Southern railroad through the village of Adrian.

UNFINISHED BUSINESS.

The House resumed the consideration of the joint resolution relative to the imprisonment of THOMAS W. DORR, the question being on the adoption of the resolution.

Without taking the question,

On motion of Mr. Pratt,

The House took a recess until half past two o'clock this afternoon.

Afternoon Session—Half past two o'clock.

The House was called to order by the Speaker, and a quorum of members answered to a call of the House.

The House resumed the consideration of the joint resolution relative to the imprisonment of Thomas W. Dorr, and the question being upon its adoption,

Mr. Speaker (Mr Wyman having been called to the chair) moved to recommit the resolution to the committee on federal relations, with instructions to amend as follows :

Strike out all after the resolving clause, and insert in lieu thereof the following :

Whereas, we have seen with deep regret the course pursued by the government *de facto* of the State of Rhode Island in the prosecution, conviction and sentence of Thomas W. Dorr, on the charge of treason against said government,

And Whereas, in the opinion and judgment of the legislature of the State of Michigan, the ground assumed by said government, and the principle that governed the decision of the tribunal that pronounced judgment upon said Dorr, are in direct contravention of the genius of our republican institutions—a practical violation of the spirit of the constitution of our Union, and subversive of the great principles that constitute the basis of all democratic governments, to wit—the sovereignty of the people and their right in their capacity as sovereign to alter and change their form of government whenever in the opinion of the majority such change is essential to their happiness and prosperity,

And Whereas, we believe the constitution formed by said Dorr and those who acted with him was in conformity to those principles, and that by the voice of the legally qualified voters of said State the

said Dorr was elected Governor under said constitution, and that in his acts under, and by virtue of said authority, he was but in the exercise of a high and solemn duty imposed not only by law but by the principles of free government,

And whereas, the question is one affecting the interests and honor not only of the state and people of Rhode Island, but of the various states of the confederacy and the union, and involving one of the great and fundamental principles of free government, upon which it is not only the right but the duty of the various states of the union in their legislative and sovereign capacity to express an opinion. Therefore

Resolved, by the Senate and House of Representatives of the state of Michigan, that we regard the unjust persecution and imprisonment of Thomas W. Dorr, by the existing government of Rhode Island, a gross infraction of the Constitution of the union—a high handed assumption of arbitrary power—an innovation upon the principles that led to the declaration of our independence as a people, and upon which our liberties as a people, our dignity as a nation, and the sovereignty of the states, mainly depend.

Upon this motion the yeas and nays were ordered, and it was rejected by the following vote :

REPORTS.

Mr. Eastman, from the committee on engrossment and enrollment reported as correctly engrossed,

A bill to repeal an act for the draining of swamps, marshes, and other low lands, approved April 18, 1839.

A bill declaratory of an act entitled an act for the transfer of certain causes from the supreme court to the court of chancery, and for other purposes; and

A bill making an appropriation for the construction of the Pontiac and Grand River road.

Mr. Eastman, from the same committee, reported as correctly enrolled,

An act to amend the charter of the city of Detroit, and that the same had been this day presented to the Governor for his approval and signature.

Mr. Stone, from the committee on ways and means, made the following report:

The committee on ways and means, agreeably to a resolution of this House, have made enquiry whether the salaries and perquisites or compensation now paid to any of the officers of the state are too high, and whether any such officers are unnecessary, and can be dispensed with consistently with the public interest, and directed me to submit the following report:

The subject of public salaries under such a government as ours, is one of general interest, and not unfrequently of popular jealousy. While all admit that public service deserves pecuniary compensation much difference of opinion exists as to the proper rates and amounts. As to the sum due a given service, your committee are aware of no better criterion than what is ordinarily realized in private employment by the order of ability which the service in allusion requires.—The known fact that individuals are ever found to accept offices at a pecuniary sacrifice, does not, in our opinion controvert the rule. The love of civil fame is a prominent trait in the human character, and generally speaking, is strongest in capable and generous minds. Indeed the most competent for public service, are often as remarkable for honorable ambition, as for exemption from avarice. That state therefore, which takes advantage of these virtues to save a pittance to the treasury, is unjust to itself and its most meritorious citizens.

On no pretence, under no circumstances whatever, should the salaries of public servants, whose time and talents are devoted to the

state be reduced below a suitable support. Otherwise, those of limited fortunes would be driven ultimately from the public service, and their places filled with others whose wealth enables them to sustain the loss, and who desire office as a means of influence, or other ulterior purpose. In short, the policy would favor the opulent by the oppression or exclusion of the less fortunate.

On comparing the various salaries of our state offices with the test suggested, your committee are of opinion that in no instance, is the sum paid too high.

As to the second branch of the enquiry, the committee know of no salaried office in the state that could be dispensed with, to the public advantage.

Mr. Eastman, from the committee on the judiciary, to whom was referred sundry petitions asking for an alteration in the license law, reported that the committee had had the same under consideration, and had instructed him to report, that an act having been passed by this legislature in accordance with the prayer of the petitioners they do not deem any further legislation on the subject this session necessary, they therefore respectfully report back said petitions to the House and ask to be discharged from the further consideration thereof.

The report was accepted and the committee discharged.

Mr PIATT, from the committee on claims reported in favor of the allowance of the claim of John Brown, at \$3,50, and move its reference to the committee on ways and means, with instructions to insert the same on the general appropriation bill, and the claim was referred accordingly.

HON. A. S. HANSCOM, *Speaker of House of Representatives* :

DEAR SIR :—We have this moment received a note from the clerk, accompanied by a resolution, passed by the House in relation to a typographical error.

We regret this error, and are at a loss to know how it occurred. The proof is read by Mr. Harmon, but of necessity, in great haste, in consequence of the lateness of the hour. Mr. Harmon is confident that the error was made *after* the proof was corrected, but by whom is not known. If the error *was* overlooked by the proof reader, it was in consequence of the repetitions in a daily journal.

The reprint will soon be sent up. Hoping this will be taken as a sufficient excuse for the error, which was truly an oversight, and not an intentional one. We are, &c. BAGG & HARMON.

And said claims were thereupon in accordance of the recommendation of the committee, referred to the committee of ways and means with instructions to incorporate the same in the general appropriation bill.

MESSAGE.

The Speaker announced the following message from the Senate:

SENATE CHAMBER, }
March 14, 1845 }

To the Speaker of the House of Representatives:

T. F. BRODHEAD,

Sec'y. of Senate.

On motion of Mr. Cartter,

The joint resolution from the Senate relative to an adjournment of the legislature was considered, and the resolution concurred in by the House.

GENERAL ORDER.

The House again resolved itself into a committee of the whole upon the general order, Mr. Cartter in the chair, and when the committee rose, the chairman reported in his place that the committee of

the whole House had had under consideration a bill to incorporate the Michigan Railroad Company, and to authorize the sale of the Southern and Central Railroads ;

A bill to provide for the compensation of the Quartermaster General ; and

A bill to provide for the survey of the Grand River, which he was directed to report back to the House, the committee having taken no action thereon, and had directed their chairman to ask leave to sit again.

The House granted leave to sit again upon the bill to incorporate the Michigan Railroad company, and to authorize the sale of the Southern and Central Railroads.

On motion of Mr. D. Johnson,

The consideration of the bill to provide for the compensation of the Quartermaster General was indefinitely postponed.

On motion of Mr. Roof,

The bill to provide for the survey of Grand River was laid on the table.

The chairman reported without amendment, House bill No. 113 to amend an act relative to common or primary schools ; and

On motion of Mr. D. Johnson,

The consideration of said bill was indefinitely postponed.

The chairman also reported without amendment a bill for the relief of the Monroe and Ypsilanti Railroad company, and said bill was thereupon ordered to be engrossed for a third reading.

Also with sundry amendments,

A bill from the Senate to amend an act relative to common or primary schools, approved March, 1843, and,

A bill to establish a board of state auditors to investigate and settle certain claims growing out of the sale of primary school, University, state building, salt spring and internal improvement lands.

And that the committee had directed their chairman to ask the concurrence of the House in said amendments.

The House concurred in said amendments, and the bill to establish a board of state auditors &c., was ordered to a third reading.

On motion of Mr. Jones.

The bill to amend the act relative to common and primary schools was laid upon the table.

The chair announced the following messages from the Governor :

EXECUTIVE OFFICE, }
 Detroit, March 14, 1845. }

To the House of Representatives :

I have this day approved, signed and deposited in the office of the Secretary of State, an act to provide for locking the Clinton and Kalamazoo canal into the Clinton river, at the village of Frederick, and for other purposes.

JNO. S. BARRY, .

EXECUTIVE OFFICE, }
 Detroit, March 14, 1845. }

To the House of Representatives :

I herewith respectfully return without my signature, to the House of Representatives, in which the same originated, "A bill to provide for the construction of a canal around Grand Rapids on Grand River in the county of Kent, and for other purposes." This bill proposes to appropriate for the construction of the canal, fifteen thousand acres of land, making the letting of the contracts imperative, and for the survey and improvement otherwise of Grand River, the further quantity of five thousand acres.

I also return in like manner, without my signature, "A Bill making an appropriation in aid of the construction of a wagon road on the line of the Northern Railroad." This bill proposes to appropriate for the purpose named, fifteen thousand acres of land.

I also return in like manner, without my signature, "A bill making appropriation for the improvement of the Detroit and Grand River Turnpike." This bill proposes to appropriate for improvement of the road mentioned, ten thousand acres of land, making it imperative on the board of Internal Improvement, within one month, to appoint a superintendent, who is required under direction of the board, to contract for the improvements as soon as the estimates can be prepared.

I also return in like manner, without my signature, "A bill to provide for the extension of the Southern Railroad from the village of Hillsdale to the village of Coldwater or Branch." This bill proposes to appropriate forty five thousand acres of land, and makes it imperative on the board of internal improvement to let contracts for grubbing, grading and bridging the road between the places named

to the amount of the appropriation, with the proviso, that they shall be let in such parcels, and be finished at such times as, in the opinion of the board, will secure the greatest amount of work for the appropriation made.

I also return in like manner, without my signature, "A bill to provide for the extension of the Central Railroad from the village of Kalamazoo to the village of St. Joseph." This bill proposes to appropriate one hundred and forty thousand acres of land for grubbing, grading and bridging the Central Railroad, westward from Kalamazoo as far as the appropriation will complete the same. No provision is made for the superstructure.

I also return in like manner, without my signature, "A bill to improve the navigation of the Shiawassee River." This bill proposes to appropriate five thousand acres of land to improve that river.

I also return herewith, in like manner, without my signature, "A bill making an appropriation to improve the navigation of the mouth of Galien River, and also in aid of the construction of a waggon road from New Troy to New Buffalo." The bill proposes to appropriate for both purposes, two thousand acres.

I have also this day returned, without my signature, to the Senate in which the same originated, "A bill for an appropriation to improve the Kalamazoo River." This bill proposed to appropriate six thousand acres for that purpose. Of this fact mention is here made, for reasons that will afterwards appear. A copy of this communication was transmitted to the Senate with the last named bill, as containing my objections to its passage.

The bills propose to appropriate in all, 243,000 acres, and, in most cases, the expenditure is made imperative upon the board of internal improvement.

At the present session, thirty thousand acres have been appropriated upon the Central Railroad and the Tecumseh branch of the Southern, as also a quantity sufficient to pay arrearages for work upon the Clinton and Kalamazoo Canal and to finish locking the same into the Clinton River, estimated by the engineer to require 12,000 acres. At the commencement of the session, 80,000 acres remained unexpended of former appropriations.

Thus it will be seen, that if the bills returned become laws, there

will be appropriated 365,000 acres of internal improvement land, which at its minimum price is equal to \$456,250, all to be expended the present year, or at least contracts therefor are to be let, and the several works to be carried forward with diligence, as required by the terms of the several bills, with the unimportant exception applicable to the Southern Railroad.

In addition to the above specific appropriations of lands, there is appropriated by an act approved March 9, 1844, \$75,000 of the net proceeds of the Central Railroad to iron the same between Marshall and Kalamazoo. It is of the utmost importance that this appropriation be carried into effect.

The state also owes for iron purchased under former appropriations, and for expenses incurred on the Southern Railroad \$80,000, to be paid within the next four months. Besides \$80,000, in scrip to be provided for the present year, there will be payable at its close, for interest and arrearages of interest at least \$150,000.

The whole liabilities for the year as enumerated above, if the bills returned become laws, will amount to the enormous sum of \$821,250 00. The appropriations for labor and materials are far greater than can be judiciously expended on so many diverse works, greater even than would be warranted were the state free from embarrassment and the expenditures to be made in money.

The lands proposed to be appropriated are of the best quality, and as eligibly situated, and every way as desirable for settlement and cultivation as any other public lands in the United States. It is an entirely mistaken opinion that should they not be appropriated, they would not contribute to diminish the indebtedness of the state. It is quite possible that present holders of outstanding bonds and warrants may not wish to make investment in lands, yet such bonds and warrants will be sought by others for that purpose, and thus be canceled. Within a reasonable time these lands will all be wanted and taken by immigrants and others at the minimum price fixed by law even though payment were required in gold and silver.

During the quarter ending March 1, 1844, before land scrip was issued at all, 1,500 acres more of these lands were sold than during the correspondant quarter of the present fiscal year. The bills propose to appropriate lands, but the appropriation of lands and the issu-

ing of a negotiable land scrip upon estimates for work, is, in truth, but the anticipation of the means of the State at a great sacrifice, and should the amount of land scrip which is authorized by these bills be issued, in addition to the amount already authorized, its value would doubtless be so far depreciated that it would command but a mere nominal price. Though issued from time to time as the several works progressed, the result would be the same; the great surplus always in market would make permanent its depreciation. This depreciation would also be foreseen by contractors and quadruple prices would be required for all work. The property of the State, that, with discreet management, might be made available at its full value, would thus be frittered away without any commensurate benefit. But little progress would be made in advancing the several improvements contemplated, and no well founded hope could be entertained of accomplishing, at a future time, what was thus inauspiciously commenced.

No greater amount of land scrip or warrants should be issued in any given year than will probably be wanted during that year for the purchase of lands. Last year 80,000 acres were sold, and there is no reason to believe that more will be sold this. By provision of existing laws, warrants for 122,000 acres are authorized to be issued the present year, being an excess of warrants for 42,000 acres more than should be forced upon the market during that period. Such warrants now command no more than half their nominal value, and the depreciation consequent upon the increase proposed may be easily foreseen.

The argument sometimes used, that work and materials are obtained for depreciated warrants on terms as favorable to the State as they could be procured for money, is so absurd that it scarcely need be refuted. To obtain means to perform their contracts, the contractors, in most cases, sell their warrants for the highest price they will bring in the market, and either the State pays for the work an increased price sufficient to make good the depreciation, or the contractor loses that depreciation. Few persons would claim to be so patriotic as to build railroads for the State for a compensation scarcely equal to one half of the just value of their labor, and the truth is, that the State loses the difference between the nominal and the market value of funds paid out upon its public works. Some unimportant exceptions may exist; but the general truth of the remark will hardly be called in question by those acquainted with the subject.

The depreciated warrants paid out in past years, though receivable for land, have been mostly bought up on speculation, which shows conclusively, that the depreciation was lost by the State, and not by contractors. They took the contracts with the intention of selling the warrants to be received in payment, securing, doubtless, an increased price for their work, that would compensate for depreciation ; and such must ever be the case in all future transactions of a similar character.

The means of the state has, at all times, been anticipated, and our works of internal improvement have, hitherto, been accomplished under great disadvantage. Work and materials could doubtless be now procured for ready money, at half the prices paid in former years.

The bills returned proposes to appropriate more lands than the state has. At the close of the last fiscal year, a residue of 294,000 acres remained of the grant of September 4, 1841, liable to the disposal of the legislature, subject however, to enactments then existing, and relating to public lands. From the quantity then on hand deducting 6,000 acres appropriated for the construction of the Grand River bridge, 42,000 acres appropriated this session and 10,000 acres reserved to be taken in the upper peninsula including rejections from former selections, in all 58,000 acres and but 236,000 acres remain. The bills returned propose to appropriate 243,000 acres, being 7,000 more than the state possesses. The land in the upper peninsula for which application has already been made to the commissioner of the general land office, is valuable for other than purposes of cultivation, and can not be properly appropriated or disposed of by acres like other land. In each selection, which cannot be less than half a section, particular points only are valuable, and the residue comparatively worthless. When information is obtained of the success of the applications, special legislation will be required to designate the manner in which this lands shall be disposed of.

Among the enactments subject to the conditions of which should be any legislation having for its object the disposal of all our public lands is " An act making appropriations upon the Central and Southern Railroads," approved February 21, 1843. This act authorizes the letting of such an amount of contracts as will be paid for by one hundred and fifty thousand acres of internal improvement land; the warrants to be drawn upon the internal improvement fund, but the state

to be in no way responsible for their payment until that fund shall be reimbursed by the sale of lands or by monies from other sources. As the internal improvement fund will not be reimbursed by monies from other sources, an appropriation of all the lands is a repudiation of the warrants issued under this act and yet outstanding. If the only substantial means pledged for their payment be otherwise applied, good faith requires that some other provision be made for their redemption, especially as the liability of the state is absolved except through the medium of the lands proposed to be appropriated.

Evidence of indebtedness is outstanding twice greater than the value of the lands at their minimum price, the holders of which are entitled to take the lands in payment. Should they so determine after contracts had been made under the proposed appropriation, which is not improbable, the confusion, difficulties and evils resulting would be almost incalculable, and among the latter, not the least, would be the creation of a debt in violation of the constitution.

The pay of engineers that would be required in carrying into effect the proposed appropriations, would not be less than twenty-five thousand dollars; and the bills make no provision upon the subject. Under present provisions of law, that sum must be taken from the net proceeds of public works, which are solemnly pledged to pay the interest on our public debt, and which, if diverted, must be replaced by increased taxation upon the people.

The bills make no provision to secure the right of way. In cases where right of way cannot be secured by compromise, and such cases are not unfrequent, the State possesses no means to make a lawful tender, unless recourse be had to the proceeds of the public works, already pledged for other objects.

¶ The bill, proposing to appropriate 45,000 acres of land upon the southern railroad, seems to require that the grubbing, grading and bridging, to the amount of the appropriation, be extended from Hillsdale to Coldwater, and no provision is made for superstructure on any portion. The appropriation would be sufficient to procure but a small proportion of the work necessary to prepare the road for the iron, and the means of the State being exhausted, the work performed would soon become worthless.

The bill proposing to appropriate 140,000 acres of land upon the

central railroad provides only for grubbing, grading and bridging the road. No means being held in reserve, the superstructure could not be procured when wanted, and the grading and bridging not being made available for use, would be a loss to the State.

Appropriations of lands upon the roads should be made with a view to revenue, and no more should be undertaken than can be accomplished. Every appropriation for an extension should provide for finishing a given portion of road ready for the iron ; and in the procurement of that material sufficient difficulties will be experienced, when all other impediments are removed.

I am in favor of extending the roads, and shall ever advocate all proper measures for that purpose. I believe, however, the bills returned, while they would absorb the means of the state, should they become laws, would defeat the very object they are designed to effect, and render their extension at a future time, if not impossible, at least improbable.

While I am in favor of extending the roads, I may be permitted at the same time to say, that I think their revenue has often been overestimated. The southern road has hitherto yielded no return for the investment made in its construction ; but an extension, while it may not secure a net revenue equal to the interest upon the whole cost of the road, will increase that revenue by an amount greater than the interest upon the additional outlay, and at the same time, afford increased advantages to citizens in its vicinity and to the public.

In regard to the revenue upon the central road, I have no hesitation in expressing my belief, that finished to Kalamazoo or to St. Joseph, it will never yield a net annual profit exceeding six per cent. upon the cost of its construction. The net annual proceeds of years past must not all be considered as net profits. A great portion of the road being comparatively new, allowance has not been made for repairs that ere long will be required for dilapidation now in progress, but [yet not so] far advanced as to require attention: All the bridges must be re-built within a few years, and the whole superstructure renewed. At the present moment iron to the amount of \$100,000 or more is wanted to lay anew the track between Detroit and Ann Arbor, and many other items of repairs are required and would be made if the means for that purpose were at command. Such repairs, though now postponed,

must ultimately be made, and their cost will be, of course, a charge upon the receipts of the road.

It is highly probable, if not entirely certain, that to pay the interest upon our acknowledged public debt, when the same shall be adjusted upon the principles of the act of February 17, 1842, the revenue of the public works will not be sufficient, and that taxation will be indispensable. In my administration of public affairs, I have endeavored so to husband the resources of the state, that when this crisis arrived the burden of taxation would be as light as possible; and I cannot give my sanction to the bills returned, believing as I do, that should they become laws, they would interpose obstacles to the preservation of public faith, and increase the taxation consequent upon a deficiency of revenue upon our public works.

The approval of the bills would prevent the completion of the Central railroad to Kalamazoo, the present year if not altogether. A large outlay has already been made upon this road between Marshall and Kalamazoo: it is now in a state of forwardness, and its immediate completion is of paramount importance. I doubt not, however, should the bills returned become laws, that land scrip would become so depreciated that contractors would in most instances abandon their contracts from inability to continue their work. I am also of opinion that the proposed appropriations would so far injure our credit abroad as to destroy all prospect and hope of obtaining the iron necessary to complete the road between the places mentioned.

The public can hardly appreciate the difficulties with which the board has had to contend for the last three years in constructing the public works, and particularly in obtaining iron and spike. To individual efforts and assurances, over and above the discharge of official duty, the state is much indebted for the procurement of iron laid upon the Central road west of Jackson, and upon the Southern, west of Adrian.

It is easy to suppose illimitable ability in the state, without the supply of commensurate means, but all legislation based upon such illusion, is likely to be injurious in its character. The present embarrassment of the state is a sufficient illustration of this; and the approval of the present bills would be but the continuation of a policy which should long ago have been abandoned.

Since this communication was prepared, contractors for furnishing the superstructure upon thirty-two miles of the Central Railroad between Marshall and Kalamazoo, have informed me that should the bills returned become laws, they would be compelled to abandon their contracts on account of the consequent depreciation of land warrants in which they are exclusively paid, and should petition the legislature for the fifteen per cent of their estimates withheld by the board.

JNO. S. BARRY.

Mr. Cartter moved that the message of the Executive be laid upon the table and two thousand extra copies thereof be printed in pamphlet form for the use of the House.

REPORTS.

Mr. Eastman, from the committee on engrossment and enrollment reported as correctly engrossed,

A bill to incorporate the Grand River Institute ;

A bill for the relief of the Monroe and Ypsilanti Railroad company ;

A bill for the relief of Henrick Willey ; and

A bill in relation to certain works of internal improvement ;

Mr. Eastman also reported as correctly enrolled,

A bill to provide for the judicial governance of the counties of Michilimackinac and Chippewa, and the several unorganized counties attached to the same for judicial purposes ;

A bill to authorize John R. Haynes to construct a dam across the Paw Paw River, in the county of Van Buren ;

A bill to authorize Ann Reeve to execute a conveyance or conveyances of certain real estate ;

A joint resolution authorizing a settlement with Thomas G. Davis ; and

A joint resolution relative to the claim of school district number three in the township of Kalamazoo, and that said bills have been this day presented to the Governor for his approval and signature.

Mr. Bancroft from the committee on printing, to whom was referred the claim of J. B. Schick, for translating the annual Message of the Governor into the German language, reported the same and re-

commended that the claim be referred to the committee of ways and means with instructions to incorporate the same in the general appropriation bill for the present year. And the same was referred accordingly.

Mr. Pratt from the committee on claims reported in favor of allowing the following claims, to wit :

A. S. Bagg, William Beall, G. F. Rood & Co., S. Bristol ; and recommended the reference of said claims to the committee of ways and means with like instructions.

Mr. Pratt also reported back the claims of Van Dyke & Harrington, and Van Dyke & Emmons, recommended a like reference, and called for the reading of communications from the Auditor General and Attorney General, respectively, in support of said claims.

The claims and the said communications were thereupon referred to the committee of ways and means, with instructions.

Mr. Pratt from the same committee to whom was referred the claim of Ebenezer Wesbrook, reported a bill for the payment of said claim and asked to be discharged from the further consideration thereof.

The committee were discharged and the said bill read the first and second time and referred to the committee of the whole.

Mr. Stone from the committee of ways and means, reported a bill to provide for paying the interest on certain state bonds.

Mr. D. Johnson, from the committee on the judiciary, to whom was referred a bill from the Senate to provide for taking the census for the year 1845, reported the same back without amendment and asked that the committee be discharged from the further consideration of said bill.

The committee were accordingly discharged and the said bill read the first and second time and referred to the committee of the whole.

Mr. Harvie, from the committee on education made the following report :

The committee on education, to whom were referred three several petitions from inhabitants of the county of Lenawee, praying for an alteration in the primary school law, so that the assessment, levy and collection of money for the purchase of township libraries may be left optional with the qualified electors of the several townships, have had the same under consideration and respectfully report :

That in the opinion of your committee, it is inexpedient to grant the prayer of the petitioners, because

1st. The school law of 1843, has not been in operation a length of time sufficient to test its merits ; and, as in the judgment of your committee, the provisions of the law are well adapted to the wants of the State, they are unwilling to recommend any interference with it at the present time.

2nd. While the township libraries are intended for the use of all the inhabitants of the township, still, there can be no doubt but that the youth, and those who have not reached the age of qualified electors, will, for the most part, avail themselves of, and derive the principal benefit from these libraries ; and, as the petitioners contemplate, the exclusion of that portion of the inhabitants from any voice in the establishment of these libraries, the required alteration seems unjust and impolitic.

3rd. Your committee are aware of the general truth of the proposition, that mental indolence and a reluctance to the acquisition of knowledge are inherent vices of the human mind ; they are, therefore, of opinion, that all proper means, consistent with the spirit of our institutions, should be devised and adopted to stimulate the public mind to rational exertion, and to furnish means for the action of that stimulated mental exertion. This opinion is the more strengthened by the reflection, that as public opinion is the only basis of our government, in proportion as public opinion is informed and enlightened, so will our government become the more stable and respectable. Your committee regard the libraries calculated to secure these objects.

4th. The amount required for these libraries, is utterly insignificant, compared with the vast general benefit which may, and doubtless will, flow from their establishment.

For these reasons, and others that might be urged, your committee are constrained to report adversely to the prayer of the several petitions, and ask to be discharged from the further consideration of the subject.

The report of the committee was accepted, and the committee discharged accordingly.

Mr. Galloway, from the committee on roads and bridges, to whom

was referred the several bills to relocate a portion of the Clinton road and a bill making appropriations for the construction of a bridle path between the village Sault Ste Marie and the borough of Michillimackinac, reported the bill back to the House without amendment, and ask to be discharged from the further consideration of said bills.

The report of the committee was accepted, the committee discharged and the said bills referred to the committee of the whole.

Mr. Cartter, from the committee on banks and incorporations, to whom was referred the following bills, to wit :

A bill to amend an act to repeal the charters of certain banks and for other purposes, approved February 10, 1842, and

A bill to incorporate the St. Clair and Romeo Turnpike Company, reported the same back respectively without amendment, and the said bills were thereupon referred to the committee of the whole, and the committee discharged from the consideration thereof.

On motion of Mr. Harvie,

The bill to provide for taking the census for the year 1845, was ordered to be placed first in order on the general order ; and,

On motion of Mr. Roof,

The bill to provide for the sale of the salt spring lands belonging to the state, was ordered to be placed second in order on the general order.

On motion of Mr. Stone,

The bill making appropriations to defray certain expenses authorized for the year 1845, was recommitted to the committee of ways and means.

THIRD READING OF BILLS AND RESOLUTIONS.

The bill to establish a board of state auditors and to investigate and settle certain claims growing out of the sale of primary school, university, state building, salt spring, and internal improvement lands, and the bill for the relief of the Monroe and Ypsilanti Railroad Company, were severally read a third time and passed.

On motion of Mr. Wyman,

The consideration of the bill in relation to certain works of internal improvement, was indefinitely postponed.

The bill to incorporate the Grand River Institute having been read a third time and the question being upon its passage,

On motion of Mr. Cartter,

The bill was recommitted to the committee on banks and incorporations with instructions to strike out the provisions in the bill which authorize the establishment of professorships of law and medicine, and thereupon,

Mr. Cartter asked for and obtained the unanimous consent of the House to report the said bill back to the House amended in conformity with the said instructions, and the bill was read a third time and lost by the following vote :

EXECUTIVE OFFICE, }
 Detroit, March 14, 1845, }

To the Senate :

I herewith respectfully return without my signature, to the Senate, in which the same originated, " a bill for an appropriation to improve the Kalamazoo River." My objections to the passage of the same consist, among other things, in the present and prospective depreciation of land scrip, the indebtedness of the state, the necessity of finishing the Central Railroad to Kalamazoo, to the exclusion of other works, and the excessive quantity of lands proposed to be appropriated by the legislature. They are particularly enumerated in a communication this day transmitted to the House of Representatives, containing the reasons for withholding my approval from certain bills proposing to make other like appropriations ; of which I herewith transmit a copy, and respectfully ask that the same may be considered as containing my objections to the bill returned.

JOHN S. BARRY.

On motion of Mr. Rose,

REPORTS.

Mr. Harvie, from the committee on education, made the following report :

The committee on education have had under consideration a petition of the trustees of the Kalamazoo literary institute, praying that their charter may be so amended as to give them the power of conferring the honors and degrees, usually conferred by collegiate institutions, on such students as may have completed the ordinary course of studies in that institution, and have instructed me to report, that, in the opinion of your committee, the usefulness and reputation of a seminary of learning depend on the excellence of the system of instruction adopted and pursued therein, and not on any power possessed by the managers thereof, of conferring empty degrees and diplomas. If a young man has undergone a mental discipline which has aroused his intellect, fortified his virtue, stored his memory with useful knowledge, and induced habits of application and thought, he will

enter the world with a certainty of attaining in due time, to a respectable position among his fellow men, and this without the aid of a parchment certificate, and an idle "A. B." or "A. M." attached to his name. The institution where such a discipline prevails will not depend for patronage and success on its power of conferring literary degrees and honors, but on the recognized excellence of its system. When the trustees of an institution of learning ask for, and urge the necessity of receiving the power of conferring degrees "to enable them to adapt the institution to the present time and circumstances, to carry out its original design, and to promote the interests of education generally," a suspicion is engendered that the trustees are laboring under a slight misapprehension of the true objects and aims of, and the internal economy adapted to such an institution. Your committee are of opinion that this power should be exercised by those institutions alone which, by the possession and control of ample means, the employment of distinguished and well known professors, and the enjoyment of a wide spread, and deserved reputation, will afford a guarantee against the abuse of the power. Experience teaches us that colleges in some of the states have been so reckless and indiscreet in conferring honors on unworthy subjects, that it is not uncommon to encounter an A. B. or an A. M. incapable of construing and translating his own diploma. Though your committee apprehend no such foolish consequences from granting the prayer of this petition, yet, they think that great caution should be used, lest the standard of education be lowered. Former legislatures have been laudibly careful in bestowing this power on chartered schools, and the only two instances in which it had been extended, are so guarded and restricted, that the clause is little better than a dead letter in the acts of incorporation. But your committee doubt the policy of conferring these degrees at all. They are inconsistent with the spirit of our institutions, and a vestige of the aristocratical distinctions of monarchical Europe. The hope of attaining them is a motive addressed not to the reason or generous emulation of youth, but merely to their vanity, intellect, morality and knowledge, confer a patent in their possessor universally recognized and respected in a patent which schools can neither give nor take away. And it is a remarkable fact in our nation's annals, that while a majority of those great and good men,

whose names are identified with the national glory, were ardent and untiring devotees at the shrine of knowledge, still they never attained the distinction of an academical degree.

After mature deliberation your committee deem it inexpedient to grant the prayer of the petition, and ask to be discharged from a further consideration of the subject.

Mr. Harvie, from the same committee made the following report :

The committee on education have had under consideration a petition of certain inhabitants of the town of Onondaga, in the county of Ingham, praying for the passage of an act requiring the supervisors of said town to assess for this year, a tax of twenty-five dollars, for the purchase of a township library, according to the provisions of the school law of 1843, which tax the supervisor for the time being, neglected to assess in 1843, in obedience to the directions of said law; and also, a further sum of fifty dollars which, by a vote of said town was directed to be assessed for the same purpose in said year, and in like manner, neglected by the supervisor for the time being; and have instructed me to report, that in the opinion of your committee, no legislation is required on the subject. Because the above sum of twenty-five dollars, directed by law, to be raised for the specified purpose, if it was not raised at the time is still a charge against the township, and can be raised at any time. As to the fifty dollars the inhabitants may again, under the provisions of law, meet and resolve to raise that sum, if they deem it expedient, which course would be in accordance with law and precedent. Your committee therefore report adversely to the prayer of the petition and ask to be discharged from the further consideration of the subject.

The said reports were accepted and the committee discharged from the consideration of said subjects respectively.

Mr. Cartter from the committee on banks and incorporations made the following report :

The committee on banks and incorporations, to whom was referred a petition of sundry citizens of the village of Kalamazoo, praying the repeal of their village charter, also a remonstrance of sundry citizens of the same place against such repeal, have had the same under consideration, and your committee, after an investigation into the reasons assigned in said petition for said repeal, have unanimous-

ly come to the conclusion that they are insufficient to justify the legislature in interfering as prayed for by the petitioners, and further, the said remonstrance is signed by a large and respectable portion of the citizens of said village, whose interests are intimately connected with its prosperity, and who remonstrate in strong terms against the repeal. Your committee have therefore instructed me to report adverse to the prayer of the petitioners, and ask to be discharged from the further consideration thereof.

The report of the committee was accepted and the committee discharged from the further consideration of the subject.

Mr. MacLeod, from the committee on the judiciary, to whom was referred the joint resolution from the Senate authorizing prisoners under criminal process within the county of Wayne to be imprisoned in the jails of any of the adjoining counties, reported the same back to the House without amendment and recommended its passage, and said bill was thereupon referred to the committee of the whole.

Mr. MacLeod from the same committee made the following further report :

The committee on the judiciary have had under consideration the petition of Cyrus Dana and others, praying the passage of a law to authorize Alvin J. Dunbar to convey certain real estate, the property of his minor children.

Sec. 2, of an act entitled an act to authorize the conveyance of real estate of minors in certain cases, approved February 28, 1840, contains all the authority necessary, on application to the court of chancery. The lands in question were conveyed and re-conveyed in trusts and fee, and several embarrassing questions arose, on which your committee could obtain no information. The subject has been kept open the entire session, and the petitioners written to in relation to the matter, but as yet no answers have been received.

Your committee ask therefore to be discharged from any further consideration of the subject.

Mr. MacLeod from the same committee also reported as follows :

The committee on the judiciary have had under consideration the memorial of Thomas C. Sheldon, praying to be released from a judgment obtained against him by the Michigan State Bank.

Your committee report that the State own no such judgment ; and ask to be discharged from the further consideration of the subject.

The several reports of the committee were adopted, and the committee discharged from the further consideration of said subjects respectively.

Mr. MacLeod from the same committee submitted the following :

The committee on the judiciary beg leave to submit the following statement for the consideration and consent of the House :

In December, 1844, a bill was brought in equity by Charles H. Carroll, a citizen of the State of New York, against Orrin Safford, treasurer of the county of Genessee, in the State of Michigan, praying that the assessment and sale of certain lands, the property of the complainant, which had been sold for taxes, might be declared illegal and void, and that the treasurer of the county might be enjoined from conveying said lands, and for other relief. These lands amounted in quantity to 3,549 71-100 acres, and were of the estimated value of \$7,500. Until 1836 they were a part of the unappropriated public domain, and subject to entry and sale. In that year, Mr. Carroll applied to the register of the land office at Flint, for the purchase of them, paid the price to the receiver of public moneys, and took a receipt for the same, (commonly called a duplicate) specifying the payment of the money. After the transmission of the ordinary certificate and prior to the issue of the patent, the lands were assessed, and in default of the payment of the tax, were sold by the treasurer of Genessee county.

The question presented was whether lands so situated—that is, before the issue of patents, could be subjected to taxation ?

The opinion of the judges, (Messrs. McLean and Wilkins,) were opposed on each of the several questions which arose on the trial ;—whereupon, on motion of the complainant, by his counsel, the points on which the disagreement happened were stated under the direction of the judges, and certified under the seal of the court to the Supreme court, to be finally adjudicated.

The case in the supreme court presented the question of state right and involved an issue of great pecuniary magnitude. If decided in favor of Mr. Carroll, a large amount of money must have been refunded by our state to those whose lands were taxed in the manner above recited. Although the interest was one of moment, no counsel appeared in behalf of Michigan. At this juncture Mr. Norvell ap-

peared in Washington, and at the suggestion of Judge McLean, and at the request of our delegation in Congress, he entered as counsel for the state and gained the cause. The ordinary fee for such services in the Supreme court, as is stated by the clerk, is \$500. In consideration of the pecuniary embarrassment of the state, Mr. Norvell expressed his willingness to take \$200.

The committee have the certificate of his honor Judge McLean, that the services were rendered, that an elaborate argument was submitted in writing, and that the several questions were examined with great ability, and evidenced a laborious investigation. The certificate of our entire delegation is also with your committee, stating the necessity of an appearance and argument in behalf of the state, and that at their instance Mr. Norvell was retained.

Your committee would therefore submit the propriety of an allowance of \$200 to Mr. Norvell for his professional services, and respectfully recommend that the same may be appropriated.

Mr. Pratt from the committee on claims, reported back the following claims, and recommended the allowance of each respectively :
A. S. Bagg, E. J. Roberts, and Edward D. Ellis.

And also that said claims be referred to the committee on ways and means, with instructions to incorporate the same in the general appropriation bill. And the said claims were accordingly so referred.

Mr. Eastman from the committee on engrossment and enrollment, reported as correctly enrolled,

A bill to organize a road district of parts of the counties of Oakland, Macomb and Wayne.

Joint resolution relative to the improvement of the harbors of the north-western lakes ;

Bill to provide for the alteration of a certain state road ;

Bill to provide for laying out a state road in the county of Macomb ;

Bill making an appropriation for the construction of the Pontiac and Grand River road ;

Bill to provide for planking parts of Michigan avenue and Woodward avenue in the city of Detroit ;

And that said bills had been severally presented to the Governor for his approval and signature.

Mr. Pratt, from the same committee, to whom was referred the Senate joint resolution relative to a settlement of the claim of A. F. Bolton and David Porter, by the board of State Auditors ;

Also a joint resolution relative to the claim of D. Ferguson, Jr., reported the same back to the House and recommend the adoption of said joint resolutions respectively, and ask to be discharged from the further consideration thereof.

The committee were accordingly discharged, and the said resolutions referred to the committee of the whole.

March 24, 1845. }

To the Speaker of House of Representatives:

SIR :—I am instructed by the Senate to transmit to the House the following concurrent resolution, which the Senate have adopted, and in which the concurrence of the House is respectfully asked.

Resolved, (The House concurring,) That a joint committee of two

On motion of Mr. Groves,

The resolution was concurred in, and the committee ordered to consist of Messrs. The Honorable the Speaker then rose and addressed the House as follows.

Gentlemen of the House of Representatives :

The hour of adjournment is at hand, our official relations about to be severed, and we to return to our families, friends and constituents. I therefore embrace this the last opportunity presented me to express to you, individually and collectively, my heartfelt thanks for your uniform courtesy and kindness toward each other and myself, during our session now about to close.

For the generous approval you have expressed of the manner in which I have discharged the duties of presiding officer of this House, I am most truly grateful, while I may be permitted to state that continued, and at times, severe illness, has made the discharge of my duties doubly irksome. I have, at all times, endeavored to discharge the duties enjoined upon me, with fidelity to you and the people of Michigan. My limited experience in the business of legislation, coupled with my youth, induced me to enter upon the discharge of the duties of your presiding officer with much diffidence, and to fear that I might not be able to meet the expectations of those too partial friends, who, by their votes, placed me in this chair.

To many of the more experienced members of this House, I feel deeply indebted for their continued counsel and advice. To every member I feel grateful for their prompt and ready adherence to the rules, their ready obedience to my decisions, and the courtesies of legislation. Grave and important questions may at times have elicited much feeling, and the excitement incident to their discussion, may have led others, as well as myself, to make unkind and hasty charges and ungenerous attacks upon others. Such are almost of necessity incidents of earnest and exciting debate. If I have wounded the feelings of any one, in all sincerity, I can say it was without design, and most regretted by myself. To our Clerk, this House, as well as myself, are under the greatest obligations for his constant and unwearied exertions to discharge every duty of his responsible and important office—that he has done so with the most perfect fidelity and signal ability, every member of this House can bear witness. In conclusion, permit me to say that much and important business has been done during our session, which, I trust, may advance the best interests of the State.

Our session has been most emphatically a business one—a laborious one. Less time has been spent in debate than at any former session of the House of Representatives; and could the people of the State be advised of the enormous amount of business which has necessarily been before us, and required our action, they could only be surprised that our session was not still more protracted.

May you have, each one of you, a speedy and pleasant journey to your homes, and meet your families in health, and the applause of your constituents be awarded to your action upon this floor. You have my earnest wishes for your future prosperity and happiness, and with no feelings other than those of kindness and friendship toward each of you, I bid you adieu.

On motion of Mr. MacLeod,
The House adjourned *sine die*.
